

CROSSCHECK

Guarantee Payment Solutions

Multiple Check

CrossCheck's Multiple Check service is a versatile payment solution that allows merchants to accept checks as partial payments while giving customers the flexibility they need to make larger purchases. This innovative program makes high-ticket items more affordable and opens the door to increased sales opportunities.

✓ How Does it Work?

With Multiple Check, merchants can accept multiple checks for a single purchase, each to be deposited at pre-determined intervals, usually within 30 days of purchase. CrossCheck guarantees the full amount if checks are returned.

✓ Do I Need Additional Equipment?

No additional equipment is needed! Merchants can process checks using their existing point-of-sale systems, or they can call CrossCheck's 24/7 customer service authorization line or visit www.cross-check.com for quick approvals.

✓ Seamless Transaction Process:

- Merchants accept multiple checks from customers during a single transaction.
- CrossCheck authorizes and guarantees the checks, ensuring payment security.
- Customers enjoy flexible payment options without requiring financing or credit applications. If any checks are returned unpaid, merchants simply submit them to CrossCheck for processing and reimbursement.

✓ Grow Sales and Build Customer Loyalty.

With Multiple Check, merchants can offer their customers a convenient way to pay over time while guaranteeing payment on every transaction. This flexibility boosts customer satisfaction, drives repeat business, and increases overall revenue.

CrossCheck Value:

Unmatched Check Approval Rates

We approve checks other providers decline, giving you peace of mind.

Complimentary Loaner Equipment

Access loaner equipment at no additional cost.
